Subject: A couple of items on Dewey from SLT

Folks, I gave a quick update on Dewey – extension of the public notice, work to get the information out to commenters and the press outlets; proposing letters to tribes that have expressed an interest in additional formal consultation; and Valois' work in developing and holding a webinar for tribal THPOs/Environmental leads. I also mentioned that we may be getting some HQ contractor support in responding to comments, which Deb was very excited about.

Deb asked that we do a briefing up to Mike Shapiro once we have gone through the comments and can provide a clearer picture of the type/scope of comments on the project. This would be a ways out, given the extensive comments that we've received, but I wanted it on your radar screen.

Deb also wanted to make sure that EPR is coordinating with us on the responses to letters that are coming in on the old uranium sites, requesting additional investigation. Sandy Stavnes indicated that her folks are coordinating with you all. Let me know if there are any issues that Bert or I should be aware of in that coordination and/or responses to citizens.

Let me know if you have questions.

Thanks!
D
